

WE'RE IN A CLIMATE EMERGENCY -

NO NEW ROAD SCHEMES

We're forming a Just Transport Group to work locally and regionally

Our aims will include:

- Pushing **for** better public transport, cycling and walking infrastructure across the Wakefield District
- Pushing back **against** unnecessary, expensive and damaging road schemes in Wakefield and throughout West Yorkshire

Scan the QR code or follow this link for more information:
[justtransitionwakefield.org.uk /activities/transport](https://justtransitionwakefield.org.uk/activities/transport)

EVERYONE – TAKE ACTION NOW!

We are working with groups across West Yorkshire on a co-ordinated transport campaign.

- The West Yorkshire Combined Authority have road schemes planned before their climate emergency was declared that are not compatible with the need to decarbonise transport
- Scan the QR Code to join in with calling on WYCA to **pause all road schemes** until they have been reviewed against WYCA's own Carbon Emissions Reduction Pathways study and to publicly **oppose the expansion of Leeds Bradford Airport**.
